

Black & White Lemur 7 Fun Facts...

The black and white lemur is the largest of the Lemuridae family.

Their fur is pure white and pitch black, long and soft.

They have very large and bright yellow eyes, and long fluffy tails.

When in groups they sing a chorus of deep barking calls that can be heard miles away.

They will howl to defend their territory.

They travel by leaping from tree to tree with great accuracy.

They primarily live in Eastern Madagascar.

3 Research Questions...

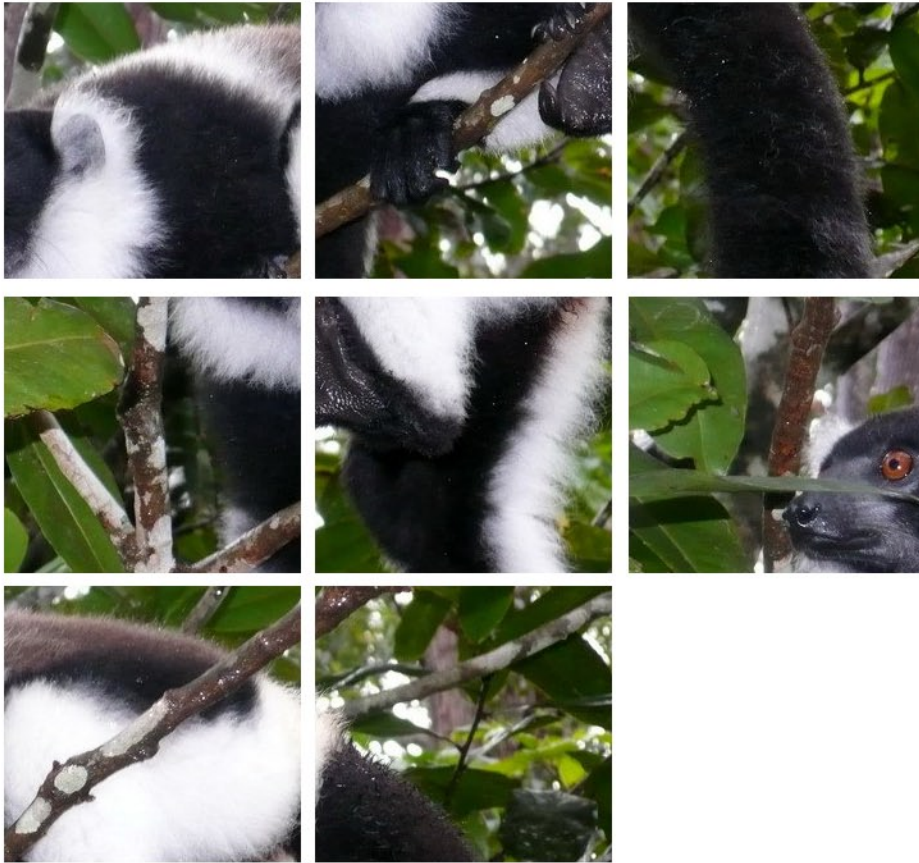

1. What time of the day is the black and white lemur active?

2. What types of food do they eat?

3. What other name are they known by?

ACTIVITY PAGE

Carefully cut out each square and rearrange them until you have your own Black and White Lemur image. Then post it on Facebook, Instagram, Twitter or your favorite social media site [#crittercrusaders](#), then search [#crittercrusaders](#) to see everyone's work!
