

## Fennec Fox 7 Fun Facts...

They are the smallest of the fox species on the planet.

Their ears can be as long as 6 inches.

They are nocturnal and spend their days sleeping, avoiding the heat of the sun.

They are very social and hang out in groups of 10, sometimes as many as 20.

When they are happy they can purr just like a cat.

They commonly live in deserts and can be found in Northern Africa, Sinai, and the Arabian peninsulas.

They are great diggers and can dig holes as deep as 20 feet.
